		Quote number	: ----
Site	: ----	Date of test	: 05-Jun-2025 - 17-Jun-2025
Sampled by	: zákazník	QC Level	: ALS CR Standard Quality Control Schedule

General Comments

This report shall not be reproduced except in full, without prior written approval from the laboratory. The laboratory is not responsible for the sample data supplied by the customer and their impact on the validity of the result.

The laboratory declares that the test results relate only to the listed samples. If "ALS" is not included in the test report in the "Sampled by" section, then the results refer to the sample as received.

Signatories

Lubomír Pokorný

Position

Country Manager

ALS Czech Republic, s.r.o.

Na Harfe 336/9
190 00 Praha 9
DIČ: CZ 27407551

The company is certified according to ČSN EN ISO 14001 (Environmental management systems) and ČSN ISO 45001 (Occupational health and safety management systems)

Analytical Results

Sub-Matrix: SOIL

Client sample ID

Remistýren 100

Laboratory sample ID

PR2569525001

Client sampling date / time

[03-Jun-2025]

Parameter	Method	LOR	Unit	Result	MU	Result	MU	Result	MU
BFR									
HBCD	S-BM-HBCD	500	mg/kg	<500	----	----	----	----	----

When sampling date is not provided by the client, the laboratory determines it for procedural reasons, then it is equal to the date of receipt of the sample to the laboratory and is displayed in brackets. Measurement uncertainty is expressed as expanded measurement uncertainty with coverage factor k = 2, representing 95% confidence level.

Key: LOR = Limit of reporting; MU = Measurement Uncertainty. The MU does not include sampling uncertainty.

Brief Method Summaries

Analytical Methods	Method Descriptions
Location of test performance: Na Harfe 336/9 Prague 9 - Vysocany Czech Republic 190 00	
S-BM-HBCD	DIN EN ISO 22032: 2009-07 Determination of HBCD in building materials by GC-MS according to internal instruction. [Subcontracted]

The symbol "" for the method indicates a test outside the scope of accreditation of the laboratory or subcontractor. If the UNICO-SUB code is stated in the method table, this only informs that the tests have been performed by a subcontractor and the results are given in an annex to the test report, including information on test accreditation. If the lab used for matrix outside the scope of accreditation or non-standard sample matrix procedure specified in the accredited method and issues non-accredited results, this fact is stated on the title page of this protocol in the section "Notes". If the test report shows the results of subcontracting, the place of performance of the test is outside the laboratories of ALS Czech Republic, s.r.o.

The method for calculating of the summation parameters is available on request in the customer service.
