

REMIVA, s.r.o.

Basic test - 25 eur

Density

Measuring of MFI or MVR of material

Spectral analyze with IR - 40 eur

Declaration of the material with IR (infra red).

Termo gravimetric analyze TGA - 45 eur

Measuring exact portion of filling inside granulates. Fillers like CaCo₃, Talc, GF and so.

Termic analyze – DSC - 45 eur

Declaration of melting and crystalization temperature of polymers and other plastics materials (ISO 11357-3)

Analyzing types of polymers inside granulate

Optical spectroscopy 20 eur

Comparing colors of granules, regrind or products.

Humidity test - 20 eur

Declaration of % of humidity inside pellets, regrind or powders.

Tensile stress and tensile strain at yield testing - 75 eur

Testing is for films, plates or laboratory testing sheets.
