

# REMIVA, s.r.o.

---

Dear Customers,

We would like to inform you about new price list for our Laboratory testing. This price list is valid from 1st of July 2021.

## Basic test - 35 eur

Density

Measuring of MFI or MVR of material

## Spectral analyze with IR - 50 eur

Declaration of the material with IR (infra red).

## Termo gravimetric analyze TGA - 60 eur

Measuring exact portion of filling inside granulates. Fillers like CaCo<sub>3</sub>, Talc, GF and so.

## Termic analyze – DSC - 60 eur

Declaration of melting and crystalization temperature of polymers and other plastics materials (ISO 11357-3)

Analyzing types of polymers inside granulate

## Optical spectroscopy 30 eur

Comparing colors of granules, regrind or products.

## Humidity test - 30 eur

Declaration of % of humidity inside pellets, regrind or powders.

## Tensile stress and tensile strain at yield testing - 100 eur

Testing is for films, plates or laboratory testing sheets.
